

FlowSync – Subscription Policy

1. Overview

This document defines the subscription policies for FlowSync, a B2B SaaS productivity platform. It includes rules for upgrades, cancellations, and billing cycles. It is used by support agents and AI systems to ensure consistent subscription handling.

2. Subscription Plans

FlowSync offers the following subscription tiers:

- Free Plan
- Pro Plan
- Business Plan
- Enterprise Plan

Each plan includes different limits on storage, integrations, and collaboration features.

3. Billing Cycles

3.1 Available Billing Options

- Monthly billing cycle
- Annual billing cycle

3.2 Billing Rules

- Monthly plans are billed every 30 days from the subscription start date
- Annual plans are billed once per year with discounted pricing
- All renewals are automatic unless cancellation is initiated before renewal date

3.3 Proration Rules

- Upgrades or downgrades during a billing cycle are prorated
 - Proration is calculated based on unused time in the current billing period
-

4. Upgrade Rules

4.1 General Upgrade Policy

- Users can upgrade their plan at any time
- Upgrades take effect immediately after payment confirmation

4.2 Pricing Adjustment

- Users are charged only the difference between current plan and upgraded plan
- Remaining balance from previous plan is adjusted on a prorated basis

4.3 Feature Activation

- New features are activated instantly after upgrade
- API limits and storage limits are updated in real-time

4.4 Restrictions

- Downgrades cannot be processed mid-cycle without proration evaluation
 - Enterprise upgrades require account manager approval
-

5. Cancellation Policy

5.1 General Cancellation Rules

- Users can cancel subscription at any time
- Cancellation takes effect at the end of the current billing cycle

5.2 Refund Conditions on Cancellation

- Refunds are only applicable within refund policy window
- No refund is provided for unused remaining period after cancellation

5.3 Data Retention After Cancellation

- Free-tier downgrade occurs after cancellation period
- Data is retained for 30 days post-cancellation
- After 30 days, data may be permanently deleted

5.4 Enterprise Cancellation

- Enterprise cancellations require formal request via account manager
 - Contractual notice period may apply (typically 30–90 days)
-

6. Plan Downgrade Rules

- Downgrades take effect in the next billing cycle
 - Immediate downgrade may lead to feature restriction
 - Data exceeding lower plan limits may be archived or restricted
-

7. Failed Payments Handling

- Subscription enters grace period of 7 days after failed payment
 - Service may be restricted during grace period
 - After grace period, account may be downgraded or suspended
-

8. Enterprise Exceptions

- Enterprise plans follow custom contractual agreements
- Billing cycles may be quarterly, yearly, or custom
- Cancellation requires approval from account management team

- SLA terms may override standard subscription rules
-

9. AI System Usage (Agentic Integration)

This policy is used by AI agents to:

- Validate upgrade eligibility
 - Process cancellation requests
 - Calculate proration values
 - Trigger billing workflows
 - Escalate enterprise subscription actions
-
